

d = 0.1

mot_md

A 2D plot with a grid. The horizontal axis is the x-axis and the vertical axis is the y-axis. Three vectors originate from the center (0,0). The vector 'mot_md' points to the top-right, 'mot_bx' points to the right, and 'mot_alt' points to the bottom-left. The angle between 'mot_md' and 'mot_bx' is approximately 45 degrees, and the angle between 'mot_bx' and 'mot_alt' is approximately 45 degrees. The angle between 'mot_md' and 'mot_alt' is approximately 90 degrees. The label 'd = 0.1' is in the top right corner.
